

## Boat share

The following went out to some recent CISS graduates:

Hello CIYC Adult Sailing alumni

Hope all is well with you and your families and that you have an enjoyable holiday season. I am sending this message to let you know about a new program at CIYC called "Boat Share". We have acquired a second C&C 25 MKII sailboat identical to the one used for the Sailing School which we plan to offer to graduates as a shared boat that you can have access to on a yearly contract.

The boat would be shared between a maximum of 4 Skippers, each of who will have equal access to book the boat for a day, part day, or weekend. The Boat Share group would be responsible for routine maintenance (keep it clean) and the club will take care of spring launch, dockage, rigging, haulout, winterization, insurance, etc.

Participating skippers will need to be a Full Member of CIYC in good standing and pay a Boat Share fee of \$350 per year for use of the boat. If you have looked at the cost of owning and keeping a boat you will see that this is a really good deal. The goal of this program is to increase our membership and of course to promote the sport of sailing.

If you are interested or would like more information please get back to me before the new year.

Get out on the water!

Thanks

Frank Foote

CIYC Adult Sailing Program

I have had 3 people express interest so far. I would like the executive to finalize policy on this program so that it can be implemented in the spring. This program could easily generate \$2000+ income yearly from equipment that we already own and maintain.
