

The 2022 Race Program AGM Report

The 2022 Race Season has come to a close. Pigeon Bay light winds were absent most of the season and we raced most nights in brisk conditions. We held three series of four races each. Cancellations - due to weather allowed us to move that race to the next week. No committee boat meant we raced on the honour system for recording times and for starts. While the program worked, most racers missed having a committee boat. This will be looked at next year with the new race director. Regattas and Wednesday night series had slightly lower attendance, seems everyone is still working on getting back in the routines after Covid.

Our fundraiser was held through the ever popular Silver Hair Cup and all funds received (including all money raised from meals) was donated to Hospice in Leamington. They were very appreciative and will work with us next year to make the event even bigger. Some of the people there might even be encouraged to get on a boat!

We were able to hold the 'annual' wine tasting and added a beer tasting to the venue. Both events were well attended, maybe we need to add something similar to the race course. Feedback on the program is always appreciated! Please forward your thoughts to John for the coming 2023 season.

Thank You

Walt Cooper and the 2022 Race Committee.
