Saturday, August 30th	Labour Day Dinner - Potato Fest \$25 - details to follow
Sunday, August 31st	Harrow Fair Cruise

OUR WATER WOES AT THE CLUB CONTINUE

Chris McCurdy has worked hard to get the outside water turned on so that people could prepare their boats for launch. He has made several trips to the club and to places to purchase parts.

The initial problem was that pipes that are not normally removed for winterization were missing. Our gas meter was replaced very recently. It is located right where the water hook up occurs. Thanks goes to Deb Bellamy who contacted Enridge to see if they knew anything about it. She spoke directly to the guy who did the actual installation. He didn't think he removed anything but did not seem sure! If he did, they were scrapped.

Enter Chris, who was faced with a puzzle to replace the pipe as they once were. He purchased couplings and needed items to turn the water on today. Thanks to Dave Prince who went down to help Chris. Everytime they added a section or worked on an existing piece it would crumple apart. The decision was made to halt attempts and contact a plumber. Pipes going into the mechanical room were failing. We don't want to flood the building.

Dave is overseeing the repair, contacting a plumber to get us back on track. Dave hoped it would be by the weekend. So, apologies to everyone. It is not for lack of trying. I appreciate your patience.

Thanks again to Chris, Deb and Dave who have given their time and effort on this.

Kevin Alles, Property Guy
