

### ***Dock Report to The CIYC Membership for 2023***

As your new Dock Officer I would like to start by saying “Thank you” to Gord Watton for his several years of service to CIYC as the Dock Officer. During his tenure he had to deal with the COVID pandemic which was not an easy task.

As the incoming Dock Officer we have challenges ahead that will have to be dealt with – such as new docks and how to pay for them, developing a time line for the transition and of course juggling docking spaces during this transition.

Launch has been set and scheduled with Moir Crane Service for Saturday April 29<sup>th</sup> 2023 – your dock request information will be sent out in the near future please ensure you fill it in and return as quickly as possible so we can ensure a dock space for you.

Haul Out has been set and scheduled with Moir Crane Service for Saturday October 21<sup>st</sup> 2023.

This is also a good time to request that if you would like to be part of the Dock Committee please contact me – we are looking for 3 volunteers at this point to assist in helping out with the many tasks that need to be completed.

If there are any ideas or suggestions you would have please feel free to forward them to me.

I wish you all a great 2023 sailing season with family and friends!

Thank you

Mike Lippmann
