I often wonder how many people go on to our CIYC website to check things out. I did not realize that we had all of this information available to our Members. Thanks Don, our webmaster, for such a great job and Eric Bullard for pointing it out.

Although this article, with links, is from the New York State area, it has some good information that you might want to check out about boat safety on Lake Erie.

Hi,

This is Eric Bullard. I came across the fantastic information you shared about the Lake Erie Area at [cedarisladyachtclub.ca/useful-links](http://cedarisladyachtclub.ca/useful-links) and I was wondering if you are still adding information and resources to that page.

Boating has evolved to have a low barrier of entry, allowing many new people to enjoy time out on the water. It has become easy to overlook the dangers of the water. As new people explore Lake Erie, we want to ensure everyone has a safe and enjoyable experience. Please take a moment to review the following safety tips and guidelines we've compiled to help all stay informed and protected during time spent on a boat on Lake Erie.

I think this could be a useful resource for your readers. If you agree, would you consider sharing this link on your webpage? Please let me know what you think and if you have any other questions.

Thank you so much for your time. Have a great day,

Eric Bullard
